As the direction of the wind would have carried a windward course from Sandy Hook Lightship into the Jersey shore, the committee was obliged to set the mark seven miles further out. This delayed the start about three-quarters of an hour,

Instead of being kept back by the revenue cutters they formed a column of hells and stacks, extending three miles toward the Jersey shore, the yachts around the line completing the shape of a fish-hook. In the matter of the use of the books in the Democratic primary of September 22d, the registration boards took the view that as this was a legalized primary it was entirely proper to permit the use of the registration books without putting the election officers to the necessity of making copies of them.

Here are the dates on which the registration boards of the various wards will sit for the enrollment of new voters, the places of such sittings being announced later: September 15th, 15th, 17th, 18th and 18th; then again after the primary on September 23d, 2th, 25th, 26th and 28th.
